High Tech Campus Eindhoven

Establishment '98

Human Focused Innovation

Health

- Personal Health & Wellbeing
 - Wellness
 - Personal Care
 - Preventive
- Microsystems Medicine
 - Micro-biosensors
 - Molecular diagnostics
 - Bio-informatics

Energy

- Solar Generation
 - Cells
 - Modules
 - Systems
- Solar Storage
 - Materials
 - Applications

Experience

- Smart Environments
 - Personal
 - Home networks
 - On the move
- Personal Entertainment

Based on existing Technology Domains

Microsystems	Embedded Systems	Photonics
Life-Tech (Bio-Tech)	Networked Systems	New Energy Techn.
Medicine Technology	High Tech Systems	Ease of use/Design

Ecosystem

- Open Innovation as work approach
 - From closed to open
 - From owning everything to focus on core competences
 - From just knowledge sharing to developing together

The lab is
our world

The world
is our lab

Ecosystem

- The right mix

Multinationals
and SMEs

Start-ups

Institutes

Service
companies

The Hotspot for Human Focused Innovation

Campus companies > 100

Centrally located in 'Eindhoven smartest region 2011' (ICF)

Considered as

'Campus of national significance'

50 nationalities

Nearly 50% of all patent applications in the Netherlands come from the Campus/Brainport

Belongs to the 17% largest science parks worldwide

Campus population > 8,000

Benefits ecosystem

1. Faster, better and more customer focused
2. Sharing facilities = reducing costs
3. Challenging workplace
